

Texas College Mathematics Journal

The Texas College Mathematics Journal (TX CMJ) is an online refereed journal devoted to mathematics and mathematics education. TX CMJ serves as a forum for the publication of high quality peer reviewed articles, where at least one of the authors is a member of the Texas Section of the MAA. TX CMJ seeks lively, well-motivated articles that can enrich both undergraduate and graduate instruction and enhance classroom learning. Articles involving all aspects of mathematics are welcome:

- pure and applied research
- mathematics education research
- undergraduate and graduate mathematical instruction, learning, or assessment
- topics pertaining to the education of in-service and pre-service teachers

TX CMJ is currently seeking submissions from the contributed papers at the 2008 Meeting of the Texas Section.

The Texas Section of the Mathematical Association of America publishes TX CMJ at <http://www.maa.org/texas/journal>.

Become a reviewer for the Texas College Mathematics Journal

The Texas College Mathematics Journal needs reviewers in all areas of mathematics, statistics, and mathematics education, including reviewers with interests in classroom instruction, learning, and assessment. To become a reviewer, provide the information requested below and turn in the form to the information desk, or fill out the online information form on the journal website <http://www.maa.org/texas/journal>.
